FASHION

EVERYDAY STYLE

Comfortable clothes are the best choice these days. I would recommend the fashionable panther trousers and the white blouse with colorful inscriptions. It is dull outside so I advise we wear something colorful, for example: the red scarf and the white cap. The half-high boots and the stylish bag with an English flag are in fashion now. :)

The **brown bear** is a large animal spread across much of northern Eurasia and North America. Adult bears generally weigh between 100 and 635 kg. Brown bears eat fish and honey.

A grizzly–polar bear hybrid is a rare ursid hybrid resulting from a union of a brown bear and a polar bear. It has occurred both in captivity and in the wild. i

10. Frog Petronela is sure that Stork Euzebiusz didn't know that she loved him.

HAVE

Stork Euzebiusz _____ about Frog Petronela loves him.

Easter Poems!

Easter have come to us today.
We will agree with it, very well.
The day of the Risen Lord we celebrate.
Such good things we can make.

A very happy chick has crossed the land.
When once upon a time Jesus had to stand.
The Chick had an empty basket, which will get full.
Now hear my story, it is so cool.
The Chick met a Rabbit, and a rabbit that the Chick met.
This nice animal, gave him some bread!
The next station is near the Sheep.
His present was cheap.
The Sheep gave some salt, pepper and meat.
And the Chick's adventure continues ...
Our brave Chick has met the Hen.
Imagine what the Hen gave to the Chick, man.
Eggs, can you imagine it? Eggs!
And the basket was full, our adventurer took a breath.
"There's one more place" the Chick said.
Our cute animal has taken his basket.
To the church full of people, and this is the end.

You can find there words and sentences which
you may use in the daily life.

At the hairdresser's:

- haircut – fryzura

Easter in other countries

Germany

Easter at our neighbors is like in Poland. For many German families, Easter is the first time when they may go outside to celebrate this holiday after the long cold winter. They also celebrate Good Friday, Great Saturday and Great Sunday. There is a special custom in Germany. Parents hide sweets and eggs in their gardens or flats and children must find them.

USA

Easter in the USA lasts only one day - Sunday. Americans spend this day with their families. During this day the competition for the most original and surprising Easter Bonnet is organized. Traditional Easter dishes are: eggs, baked ham in a sweet sauce and cakes.

Britain

Easter is very important in this country. They spend this time with family. Their Easter traditions are:

One of them is rolling the eggs and it is so called Egg rolling. The game is won by the person whose egg rolls down the hill quickly without breaking the shell or crashes as the last one.

Egg Jarping/Egg Tapping means breaking the shells. The players crack egg to egg so as to break the shell. The person whose egg wasn't spoiled is the winner. What is the Egg hunt? Children just look for chocolate eggs which were hidden by their parents on Easter Sunday morning. The child who finds the most sweets is the winner.

Italy

Easter, or Pasqua is the second most important Italian holiday after Christmas. They spend this holiday abroad with their friends. When they spend Easter at home they prepare ceremonial dinner. Then Italians eat lamb, salami, eggs, ravioli, roast lamb, all kinds of cheese and good dry wine.

Exam Exercise!

Fill in the gaps in the text with the words from the frame.

Type the words in the correct grammatical form. Two words are extra.

bodily literary
feet shell
namely factual
cover has

The word "gastropod" is derived from the Ancient Greek words "stomach", and "foot", hence stomach-foot. This is an anthropomorphic misnomer based on the 1..... that to humans it appears as if snails and slugs crawl on their bellies. In reality, snails and slugs 2..... their stomach, the rest of their digestive system, and all the rest of their viscerain a hump on the opposite, dorsal side of the 3..... In most gastropods, this visceral in hump is 4..... by, and contained within, the shell.

In the scientific 5....., gastropods were described under the vernacular (French) name "gasteropodes" by Georges Cuvier in 1795. The 6..... was later Latinized.

The earlier name univalve means "one valve" or shell, in contrast to bivalve applied to mollusks such as clams and meaning that those animals possess two valves or shells.
